Initial Settings Before You Use

- **Phone audio settings**

Go to **Settings > phone audio > ON/OFF.**

When wearing Bluetooth headphones, please connect your phone to the Bluetooth headphones and enable this option. When using wireless CarPlay/Android Auto, all audio, including music playback, calls, navigation, voice assistant, etc., will be transmitted to the Bluetooth headphones.

ON (recommended)

If you want all audio from wireless CarPlay/Android Auto, including music playback, calls, navigation, voice assistant, etc., to be played through the device's speakers, then set this option to "OFF."

OFF

// How to use wireless CarPlay

- (1) Open CarPlay in the homepage, it will show the Bluetooth you should pair
- (2) Open Bluetooth on your iPhone and pair the device
- (3) Allow all pop-up
- (4) The first connection will spend 30~60s, wait for a moment and go into CarPlay

How to use wireless Android Auto

- (1) Open Android Auto in the homepage, it will show the Bluetooth you should pair
- (2) Open Bluetooth on your iPhone and pair the device
- (3) Allow all pop-up
- (4) The first connection will spend 30~60s, wait for a moment and go into CarPlay
