# READ ME FIRST

This adapter is designed for iPhone to use Apple CarPlay wirelessly on factory car multimedia system which has built-in wired Apple CarPlay. However, NOT every car with built-in CarPlay could fit this adapter. If there is any issue while using the adapter, please do not hesitate to email us at [support@ottocast.com](mailto:support@ottocast.com).

<b>Function</b>	Convert OEM Apple CarPlay to wireless Apple CarPlay
<b>Compatibility</b>	Car: with OEM Apple CarPlay
	iPhone: running iOS 10 or newer
<b>Control</b>	OEM touch screen, steering wheel, and joystick control
<b>Input Power</b>	USB 5V~1A
<b>Connectivity</b>	Wi-Fi & Bluetooth

## How to check a car has CarPlay or not

1. Plug an iPhone (running iOS 10 or newer) into the car USB ports with genuine factory lightning cable. If there is a notification pop up on iPhone like below, that your car has built-in Apple CarPlay.

2. If there is a CarPlay icon in the car stereo menu, that your car has built-in Apple CarPlay.

3. Contact your car dealer for help.

## What's in the box

- Wireless adapter \*1
- USB cable (Type-C to A) \*1
- USB cable (Type-C to C) \*1
- User manual \*1

## Connection diagram

**NOTE!** The adapter should be plugged into the USB port that is for wired Apple CarPlay connecting if there are multi USB ports in your car.

## How to set up wireless CarPlay

- Turn on your iPhone's Wi-Fi and Bluetooth, then pair to the Bluetooth named "OTTO-xxxx"
- Tap "Pair-Allow-Use CarPlay" on the iPhone pop-up notifications
- It will then connect to CarPlay wirelessly after a few seconds.

**NOTE!** Before pairing to a new iPhone, please disconnect the currently connected phone from Bluetooth/Wi-Fi in iPhone's control center or click the adapter's buttons once.

## Firmware update & report an issue

Firmware updating is NOT recommended when every function works well.

A screenshot of a user interface for reporting an issue and checking for updates. The interface is enclosed in a dashed border. It contains several sections: "Car Make" with a dropdown menu showing "E.g. Toyota"; "Model Name" with a dropdown menu showing "E.g. Camry XLE"; "Year" with a dropdown menu showing "E.g. 2020"; a text input field for "Detailed description of the problem:" with a placeholder "Please enter text here"; a green "Submit" button; a grey "Online Update" button; a message "New version is available" with a red "Update" button below it; and an "Update Notes" section with a list item "1. fix some bugs". Three blue lines with circular endpoints point to specific elements: one points to the "Detailed description of the problem:" label labeled "Report the issue"; another points to the "Update" button labeled "Check for update"; and a third points to the "Update Notes" section.

---

## ● How to update or report

- If your iPhone is connecting to the wireless CarPlay, enter **192.168.1.101** on iPhone's browser, next tap "**Update**" if there is an update available
- If your iPhone could not connect to the wireless CarPlay, please join the adapter's Wi-Fi network [**OTTO-xxxx**] by manual and the password is **88888888**
- Next enter **192.168.1.101** on iPhone's browser, tap "**Update**".
- At the same web interface, you could also fill in the car make, model years, and issue details, next tap "**Submit**" to report the issue. After the success notification appears, take a screenshot and email us at [support@ottocast.com](mailto:support@ottocast.com). We will fix it as soon as possible.

---

**NOTE!** The blue and red LED indicators will flash alternative while updating. Wait for more 30s after the white indicator is solid, then disconnect and reconnect the adapter from USB port to finish the whole update.
